Peter Zhang, CEO, LeadGen

"BQ data is highly effective for targeting qualified small business owners with commercial loan offers. We use BQ for direct dial campaigns, finding that about 4% of phone calls are successfully referred to loan brokers, which far exceeds the usual 1% we previously obtained with other lead sources."

Timothy Li, CEO, Kuber Financial

"BQ allows us to identify small business owners among consumer profiles with a high degree of accuracy, and thereby conduct more effective direct mail campaigns targeting these folks with consumer loan offers. Knowing that a consumer owns a business creates a remarkable 40% difference in the response rate to the loan offer."
